

Lesson CritiqueStudent's Name: Jenny Neville Date: 27.8.12Subject/Topic: English - Myths Year: 7Mentor Teacher/Supervisor: Melanie Zanich

Commendations

Great use of your voice when reading. Good to see you using the students to help you read the story.

A great discussion on myths. The students were really interested. Good to go through an example of what you expect for your worksheet. Well done for consistently asking for attention. Great movement around the classroom.

Recommendations
Be clear as to whether you want hands up or calling out for discussion times, (this came later), and stick to this. Perhaps when discussing that students can talk, give them the expected noise level... whisper?

Any questions? before sending them off on task. Let the class know when they are working at an appropriate noise level.

Overall Impression
A great way to create interest through discussion.

Fantastic mat session and following activity.

Well done Jenny ☺
